

China Paper Industry Report 2010 Is Ready Now!

China produced more than 92million metric tons of paper and board in 2010, realizing an increase of 7.29%. From 2000 to 2010, the annual growth rate of China's paper and paperboard production was averaged at 11.76%, exerting an ever growing influence on global paper, pulp and recovered paper market in periods of economic uncertainties.

The 29-page report released by China Paper Association analyzes the paper industry's performance, details industry structure, evaluates market share, presents historical data for the years 2000-2008 and illustrates by figures and graphics such sections as production-consumption, key industry indicators, pulp production-consumption, imports-exports, consolidation, equity structure, production-sales of top-30 Chinese companies and environmental protection.
